Experience

Caribbean Minerals Ltd – Managing Director - Jamaica

November 2017 – Present <http://www.caribbeanminerals.co.uk/>

Caribbean Minerals Ltd is a privately held company, registered in the UK. The company is focusing on acquiring and developing mineral assets in the Caribbean with a current focus on contrarian gold deposits in Jamaica.

Kangari Consulting Limited – Principal Geologist - Worldwide

November 2015 – Present <http://www.kangariconsulting.com>

Clients have included – Palisade Global Investments Ltd (project due diligence), GeoSystems International Inc. (geological and resource modelling), Goldcrest Resources (resource estimation), Algom Resources S.L. (resource Estimation), Various private clients (project generation).

Resolute Mining Limited – Senior Exploration Geologist - Syama

Syama Gold Mine, Syama, Mali

November 2016 – June 2018 <http://www.rml.com.au>

- Regional and near mine exploration planning
- Review and interpretation of geological data
- Regional project generation, business development and review
- Resource estimation and geological modelling using Micromine & Leapfrog
- Training and supervision of local staff
- Working to the highest level of HSE awareness

Perseus Mining Limited – Exploration/Resource Geologist (formerly Amara Mining PLC)

Yaoure Gold Deposit, Angovia, Cote d'Ivoire & Baomahun Gold Deposit, Sierra Leone

May 2014 – October 2016 <http://www.perseusmining.com>

- Drill planning and supervision (86,000m drill out of 7.3m oz. Yaoure gold deposit)
- Resource estimation with Datamine Studio 3/RM and GSLib at Yaoure and Baomahun
- Exposure to Inverse distance, ordinary kriging and multiple indicator kriging
- Conditional simulation and optimisation
- Geostatistical analysis and interpretation
- Managing local exploration campaigns
- Working with consultants on feasibility tasks, resource, mine planning, infrastructure
- Run investor and stakeholder visits for both geology and mining
- Managing DataShed database

Alecto Minerals PLC – Project Geologist

Wad Amour, Mauritania, Aysid/Waya Boda, Ethiopia & Kossanto, Mali

September 2012 – May 2014 <http://www.alectominerals.com>

- Managing grassroots exploration from remote field camps in Mauritania (IOCG) and Ethiopia (Shear Au)
- Training and field management of all local staff
- Completing exploration on time and to limited budget
- Working directly with management on business development and stakeholder interest
- RC/DD drill planning, supervision and logging in Mali (107,000oz Au resource)

Hugh Stuart Exploration Consultants – Geologist

Seconded to Ghazal Minerals Co. Ltd – Red Sea Hills, Sudan

March 2012 – September 2012 <http://www.hsexploration.com>

- Base metal VMS deposit analysis in the Red Sea Hills
- Supervising local and junior expatriate staff
- Planning and implementation of geological and geochemical surveys for regional exploration
- Mapping, sampling, trenching and drill design
- Drill rig supervision, logging of core (~5000m), sampling and HSE advice

Ormonde España S.L. – Project Geologist

Ormonde Mining/Antofagasta JV, La Zarza Project, Calañás, Spain

November 2011 – February 2012 <http://www.ormondemining.com>

- Management of joint-venture between Ormonde Mining and Antofagasta
- VMS exploration on western extension of the La Zarza pyrite mine
- Detailed geological and structural mapping of licence area and interpretation
- Drill logistics and consultant logistics
- Diamond drilling supervision, logging and sampling
- Reviewing projects, historical data and contracts to make decision

London Africa Ltd – Project Geologist (Eritrea)

Akordat-Orota Licence, Asmara, Eritrea

October 2009 – October 2011 <http://www.londonafrica.co.uk>

- Grassroots prospecting in remote, arid areas
- Setup and management of local company and office
- Designing and implementing geochemical sampling from Aster anomalies
- Working in conjunction with the Government of Eritrea on mapping and investigation work
- Creating field work plans and budgets
- Coordination of laboratories, consultant and contractors, including a large VTEM survey
- Discovery of 6 Au bearing veins and a stratabound Cu prospect in year 1

Tethyan Copper Company – Contract Geologist

Barrick Gold Corp/Antofagasta JV, Reko Diq, Baluchistan, Pakistan

June 2009 – September 2009 <http://www.tethyan.com>

- Organisation, supervision and cataloguing of coarse reject material and new core storage facilities
- Experience with geology of large Cu/Au porphyry systems
- Comprehensive geochemical study using pXRF to test previous anomalies in drill core
- Training local geologists with pXRF technology and geochemical sampling best practice
- Implementing new and improved HSE policies with a focus on local security and GPS tracking
- Remote, arid location with particularly challenging weather conditions

Barrick Gold Corporation (Australia Pacific) – Vacation Student

Kanowna Belle Exploration, Kalgoorlie, WA, Australia

June 2008 – September 2008 <http://www.barrick.com>

- Supervision of 9,500m aircore drilling program
- Regolith logging from aircore chips
- Sampling and submission of samples
- Management of exploration database
- RC logging and sampling
- Working as part of the near mine exploration team
- Geological and water modelling using Datamine Studio 3

SRK Exploration Ltd – Geological Assistant

Drakelands, Hemerdon, Devon, UK

August 2007 – September 2007 <http://www.srkes.com>

- Logging core of a large tungsten project, including cataloguing, photography and personnel management.

Drivers Licence – Full UK, International Driving Permit

Professional Memberships & Awards

- Associate of the Camborne School of Mines (ACSM)
- Member of the Institute of Materials, Minerals and Mining (MIMMM)
- Fellow of the Geological Society of London (FGS)
- Registered Scientist with The Science Council (RSci)
- Member of the International Association of Mathematical Geosciences (IAMG)

Education

September 2006 – June 2009 – BSc Applied Geology – Degree Class 2:1 (Hons); Camborne School of Mines, University of Exeter, Penryn, Cornwall, United Kingdom

December 2016 – Present (2019 expected) – MBA (International Mineral Resources Management); University of Dundee, Dundee, Scotland, United Kingdom.

Courses & Certificates

- MapInfo 11 with Discover – Advance course – November 2010 – Esri, Asmara, Eritrea
- MIRA 2 – Tropical medicine for remote areas – June 2011 – ExMED, Hereford, UK
- Geosoft Target – November 2014 – In house, Côte d'Ivoire
- Resource Estimation using Studio 3 – February 2015 – CAE Mining, Côte d'Ivoire
- DataShed Administrator training – April 2015 – Maxwell Geoservices, Ouagadougou, Burkina Faso

Software

- Datamine Studio 3/RM - (Advanced user)
- Micromine - (Intermediate user)
- Leapfrog - (Intermediate user)
- GSLib - (Intermediate user)
- Microsoft Suite - (Advanced user)
- Access - (Intermediate user)
- SQL & DataShed - (Intermediate user)
- Geosoft Target - (Advanced user)
- MapInfo (Discover) - (Advanced user)
- Surpac - (Basic user)
- NPV Scheduler - (Basic user)
- SimSched - (Basic user)
